JOSIAH TURNER, Jr., EDITOR.

From the Cincinnati Enquirer.

LETTER OF HON. THOS. EWING.

Hon. Thomas Ewing has written a very able and elaborate letter against the whole policy of the Republican party, and particularly that of Mr. Boutwell, the Secretary of the Treasury. The letter affords abundant evidence that Mr. Ewing, who must be between three-score years and ten and fourscore, retains all the vigor and intellect which for forty years has rendered him a historical character. It is now a third of a century since Mr. Ewing was a Whig United States Senator from Ohio. Twenty-eight years ago he was the Secretary of the Treasury in the Cabinet of Gen. Harrison. Eighteen years he filled the same position in the Cabinet of General Taylor. He has since, with one or two exceptions, acted with the Republicans, and against the Democracy.

But the late outrages of that party have been too much for him. He is particularly opposed both to their reconstruction and financial policy. His letter, which is full of valuable suggestions, can not but be felt upon the result of the canvas. We will quote here what he says upon the Fifteenth Amendment. He insists that the amendment has not been legally submitted, because the Senators and members from the Southern States were denied admission, and that the two-thirds required to pass it must be two-thirds of the entire Houses, and not of the fractional number present. In this connection he says:

"That which we have is no more a constitutional submission than would have been a resolution of a Republican caucus.

"But there is now also an attempt to force this irregular resolution upon us, without the consent of the Legislatures of a constitutional majority of the States. The Southern States not yet reconstructed are to be denied readmission as States until they adopt this amendment. They are to be thus forced to give their free consent to it. Besides, if the unreconstructed States ratify the amendment pursuant to the resolution, what will it avail? The whole action of Congress is founded on the assumption that they are not now States in the Union, but some kind of quidity, no one knows what—territories, conquered provinces, military proconsulates—and not States, until again admitted. Now, if they adopt the resolution in obedience to this mandate their action is nugatory. None but States of the Union can participate in amending the Constitution of the Union, and the whole Radical system of reconstruction rests upon the assumption that they are not now States. But the party, having determined to carry the measure, constitutional objections are, I am well aware, unavailing—impertinent, perhaps, since caucus resolutions have become the paramount law. I am, however, opposed to the measure, totally and entirely, and to all the jugglery and thimble-rigging by which it is to be brought about. I am unwilling to change the Constitution of the United States for a trivial cause, even if some possible good might follow it—but here I can see none. The proposed amendment is not in accord with the opinions and feelings of our people, and I would not have them lured or forced unwillingly to adopt it. There is no more reason for extending to the negro political than social equality. Indeed, both are proposed by ultra Republican reformers, and both supported by the same arguments. The experiment of negro supremacy, where now in full operation, has not generally produced results which impress men favorably."

WEST VIRGINIA DISFRANCHISEMENT.

It is stated that the Wheeling *Intelligencer*, the leading Radical paper of West Virginia, advocates the removal of suffrage restrictions from ex Confederates. To do this, an amendment of the Constitution of this made-to-order State is necessary, said restrictions being a part of the fundamental law, and thus reading:

"No person, who, since the first day of June, 1861, has given or shall give voluntary aid or assistance to the rebellion against the United States, shall be a citizen of this State, or be allowed to vote at any election held therein, unless he has volunteered into the military or naval services of the United States, and has been or shall be honorably discharged therefrom."

Under this provision, the voting population of West Virginia is, as may be readily imagined, highly loil; so loil, in fact, that we are led to fancy that it will be a matter of some difficulty for the Wheeling *Intelligencer* to have its liberalizing proposition meet acceptance. Under the West Virginia constitution, it is necessary, in order to have a constitutional convention, that the Legislature should first pass a law, "by the affirmative votes of a majority of the members elected to each branch," that the polls be opened for the people to vote, whether they desire such convention or no. If a convention, then a second election for delegates thereto is to be held; and then, on the adjournment thereof, still a third popular election is to be had to determine whether the action of the convention is to be ratified or rejected. In this way, any proposed amendment of the West Virginia constitution has to run the gauntlet of three references to the qualified voters—a very good thing if only suffrage was free, but not so good when the purpose thereof is not a fair expression of popular opinion, but to give the disfranchising minority a chance to keep and hold down the disfranchised majority. The West Virginia Legislature stands:

	Senate.	House.	Joint Ballot.
Democrats	3	15	18
Radicals	19	41	60
Radical majority	16	26	42

A submission to the voters of the question of Convention or no Convention would thus require the Democratic members to be assisted by the votes of nine Radicals in the Senate and fourteen in the House. Coming before the voters, the question would meet, in round numbers, 30,000 Radicals to 20,000 Democrats, and, in case Convention should be carried, this same vote would have to be met to ratify its work. As the sole end of that work is to enfranchise the 25,000 disfranchised Democrats of West Virginia, and such enfranchised would at once swamp the Radical vote, both popular and legislative, within the State, and secure henceforth three Democratic Representatives in Congress and two Democratic Senators, it is expecting too much of Radicalism to suppose it capable of voting a liberal vote straight through the complicated elections necessary to the removal of those suffrage restrictions on which its power rests for its sole basis. Despite the *Intelligencer's* lead, we are inclined to doubt, therefore, the liberalization of West Virginia by the action of that close communion which, under her truly republican form of government is known as her voting population; but with a Democratic triumph in 1872 there will be found plenty of good law to set this wrong right.—*N. Y. World.*

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Rev. Robert Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Inland Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, *free of freight*, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, SEPTEMBER 10, 1869.

REPUDIATION.

The *Standard* says there is no difference in parties in this State except on the subject of repudiation, charging the Democratic party with Repudiation and claiming that the Republican party is opposed to it. We have already shown that there are other and radical differences between the Democratic Conservative party of North Carolina, and the so-called Republican party; differences as irreconcilable as light and darkness, or as truth and falsehood. We shall not stop here to state these differences, but proceed to notice that to which the *Standard* alludes, namely, the doctrine of Repudiation.

The *Standard* bases its charge of Repudiation against the Democratic party, on what the Salisbury *Examiner* has seen fit to set forth as *its* platform, without pretending to speak for the Democratic party, or for any one else, that we are aware of but for the editors themselves. It is very fashionable, now-a-days, for newspapers to lay down their own platforms. The *Standard* laid down one not long since, embracing, "universal suffrage, universal amnesty, removal of all political disabilities, abrogation of test oaths," and many other good things, never intended to be stuck up to. Suppose somebody had charged that this was the platform of the Republican party of North Carolina—(we had no idea of making such a charge, for we didn't believe it)—but suppose the editor of the *Examiner*, or "any other man" had taken it into his head to charge the Republican party in North Carolina with being in favor of removing all political disabilities from all her white citizens, and abrogating all test oaths; what would Governor Holden have said? Why, he would have pointed to that celebrated "interview," with the New York *Herald's* correspondent, published in the *Standard* of Friday, the 3rd of September, 1869, and said, "see here, Mr. What's your name, you are a little too fast; read what I told this *interviewer*, 'the people of Virginia have simply placed themselves where the Republicans of North Carolina have been from the first, *that is, for allowing every male citizen to vote. That is what I understand by universal suffrage and general amnesty.*' How much removal of disability and abrogation of test oath is there in that?" So would say the Governor, and *the Governor is the Republican party in North Carolina*, except a few honest members of the party who refuse the courtesy of a sneeze at every pinch of snuff His Excellency sees fit to apply to his proboscis. So you see, by analogy, Mr. *Standard*, that your charge of Repudiation upon the Democratic party, rests upon a very slender foundation.

But who are the repudiators? We say the Republican party of North Carolina are Repudiators, and instance the following facts to substantiate and make good the assertion. The Radical Legislature passed an act appropriating certain bonds for the Chatham Railroad—an injunction was served out and the Radical Supreme Court sustained it until a final hearing, when, no doubt, the injunction will be made final.

The same Legislature passed an act making appropriation of bonds for the University Railroad; the Governor and Treasurer repudiated the action, and refused to issue the bonds, and, being sued to force them to do it, the Radical Supreme Court sustained the Radical Governor in his repudiation of the acts of the Radical Legislature, and thus the Radical promise to pay (and bonds are nothing more than promises to pay) was repudiated by the whole Radical concern, and the University Railroad Company went without their bonds.

Other acts of the Radical Legislature appropriating bonds (making promises to pay) other Railroad Companies, have been also repudiated by the Supreme Court, and the brilliant prospects of many a moneyed scheme thus blasted in the bud. Now, be it understood, we are not complaining of this Radical repudiation; on the contrary, we think they are highly commendable for it; and it is a great pity they have not done more of it—In the case of Dr. Powell's "lime bed" Branch, for instance, which, we suppose will be done; but we merely allude to these facts to show who are the Repudiators.

"But," the *Standard* may say, "these bonds were not put on the market and the money received for them; if they had been, they ought to be paid." They ought, eh? Who ought to have paid them? Ought the people of the State to be taxed to pay the interest on bonds, and finally the bonds themselves, that were wrongfully and unconstitutionally issued?

But there were some other bonds issued by the Treasurer—bonds to the amount of one hundred thousand dollars, to pay for a certain Penitentiary site, that the State has no use for and no title to; and, what is worse, never can have, yet the bonds have been issued, probably passed through several hands by this time—what does the *Standard* think of these? Ought they to be paid or repudiated? We would really like to hear from that anti Repudiation advocate on this subject.

Then we would like for the *Standard* to show some tangible ground for the charge of repudiation on the Democratic Conservative party in North Carolina—some resolution or declaration against any State debt that has ever been *honestly* contracted, except certain debts which she was *forced* to repudiate.

More anon on this subject.

BALTIMORE.

We spent last week in Baltimore at the Gilmor House, kept by Kirkland & Co. We were confined by sickness to our room most of the week. We did not see as much of the city as we intended, but we had ample opportunity to judge of the character and merits of the Gilmor House.—Everything that is needed to make the traveller comfortable is to be found at this popular House.

There is no City of the South, and few, if any, of the North, which gives such signs of prosperity and increased trade as Baltimore. It is to be the Queen City of the South. The Monumental City reaches her arms out far and wide for commerce and trade. Her Railroads bring her in close contact with the Mississippi and the far West. Her line of Steamers have introduced Bremen and Europe, by way of Chesapeake bay, instead of by Hellegate and the City of New York. With a little exertion halt the emigrants who land at New York may be induced to land in Baltimore. It would be both cheaper and better for the emigrant, and nearer his destined home in the West.

It would not do to call Baltimore a North Carolina Colony, but the same number of North Carolinians settling in a new country would entitle it so to be called.

Among the young North Carolinians who reside in Baltimore, we saw Messrs. Johnson, Roulhac, Cotton, Bost, Carmer, Dodd, Tatum, Lanier, Miller, Merrimon, Manly, Gaston, Martindale, Winston, Dunn and many others whose names we can not now recall. We wish these young men great succes in all matters save in love-making to Baltimore girls. There are girls in North Carolina who lost all with them in the "lost cause" save their beauty and purity. The girls who made up the gray and prayed for the men who wore it, should not be left to the mercies of carpet-baggers, negroes and scalawags, especially after the advice given to carpet-baggers in the *Standard* of Sept. 19th, 1868, in the article "Work." If burning could be justified for any offense, we should say the *Standard* man for writing that article should have been burnt in the Capitol Square.

Baltimore seems to be blessed with schools, churches and charitable institutions. We saw a German teacher open his school with 500 scholars the first day.—What does Brewer, Pool and Patrick think of that?

If the same means were employed to make up his school as is employed to make up the school at Chapel Hill, his number instead of five hundred would equal the number at Chapel Hill. The German has as many scholars as he deserves and so has Brewer Pool and Patrick. Chapel Hill once boasted of its five hundred students. Brewer, Pool and Patrick were, for party purposes, forced upon the University, and the number now is less than twenty with a full corps of Professors.

Force Brewer, Pool and Patrick upon the German teachers in Baltimore, as Brewer and Company was upon Chapel Hill and you force his numbers from five hundred to five. Coercion will not do in science and literature, as Governor Holden and the Trustees of the University have found out, but are ashamed to acknowledge. You can't force parents to send their children to be instructed by men, whose political conduct they repudiate and whose sentiments they despise. Give it out Governor, give it up Brewer and Pool.

Philadelphia seems to have sacrificed its Southern trade to its political malignity. At one time this city of brotherly love had an immense Southern trade. The President of the United States could not visit there without an exhibition of political hatred on the part of the city council.

If Philadelphia had shown the same liberal spirit to the merchants of the South that New York has shown, our merchants would not have given her the go by as they have done.

We visited the establishment where Messrs. Herbert and Hairston manufacture their phosphate of lime. The high character of the Chemist whom they have engaged to manufacture their phosphate is a guarantee against all fraud.

FRUIT AND OYSTER PACKING.

This business yields nearly as much profit to Baltimore as the cotton crop to the people of North Carolina. The money produced from the fruit crop alone is astonishing. The house of Thomas Kinsel & Co. alone employ 1,000 hands, who fill and prepare for market, annually, near 7,000,000 of cans of oysters and fruit. During peach season they fill 30,000 cans per day.

We hope, soon, to see Ridgeway, in Warren county, with its orchard of 250,000 peach trees, imitating the house of Kinsel & Co.

We have no hope of seeing Chapel Hill, with its charity features of free tuition, come up to the German school, where there was no charity scholars.

The Boston *Advertiser* says that a book will soon be published in that city, from the pen of a clergyman, not a Mormon, defending polygamy on moral, social, physiological and religious grounds.

Mme. Rachel, the enamelur, is threatened with a new lawsuit by a lady in the North of Ireland, a near relation of a member of the House of Lords, who claims to have been swindled be her out of £2,000 in cash, and £6,000 for articles of embellishment.

There is a journalistic boat race shortly to take place on the Hudson. The crews are respectively English and Irish-American.

SENATOR ABBOTT.

We are called upon to re-publish the Abbott-Engelhard correspondence, which we can't do just now, but will try and do so about the time Congress meets, to the end that the assembled wisdom of the nation may see that a Senator from North Carolina is not to be trifled with, even by Sprague.

If the *Star* thinks it no invasion of the "Social Circle," we should be glad if it would inform us if "bully Abbott did hunt up Judge Cantwell to bind himself to keep the peace? Did he go, as we have heard, with the Mayor, Marshal and two police officers to the City Hall and bide himself in a small room until the Mayor made out the oath to bind Abbott and Major Engelhard to keep the peace? When the Mayor reported to Abbott in the little room that Judge Cantwell required a bond of $1,000 of the parties to keep the peace, did Abbott say to the Mayor "go tell Judge Cantwell to make the bond $5 000?"

Brother *Star*, give us the asked for information by the time Congress meets. These acts on the part of Senator Abbott, if true, will make a very proper and popular *addenda* to the correspondence which has so delighted, without at all astonishing, the whole people of the State.

The Alexandria (Va.) *Gazette* says: "Reliable accounts from King George county represent that the proceedings of the last term of the County Court of that county exceeded any of a judicial character that ever before occurred in Virginia, and were so disgraceful that most of the gentlemen of the county who were present left the court house in disgust. The court it will be remembered, is composed of General Canby's appointees."

On Sunday night an affray took place on the Morrisdale (Pennsylvania) campgrounds, during religious services, between a party of whites and blacks. The result of the conflict was the mortal wounding of Charles Brown, who was shot by a white man named Samuel Gaston. Two white men, named William Sheppard and William S. Anthony, and a negro named Henry White, were severely injured.

The Spiritualists in convention at Buffalo have decided to organize the American Association of Spiritualists, which is to permeate the entire States, and become a grand religious organization, "free from sect or dogma." The Hon. J. G. Wait, of Michigan, was elected first President of the organization under the new constitution.

Secretary Rawlins' Family.—The late Secretary of War, General John A. Rawlins, was married in June, 1856, to Miss Emily Smith, of Goshen, New York, with whom he lived happily for five years, during which time three children were born. She died in 1861, and after two years he married Miss Mary E. Hurlburt, of Danbury, Connecticut, who is now in Connecticut, in feeble health consequent upon the recent birth of an infant, which lived but a short time.

The kangaroo skip is a new thing with young ladies at Newport. They lap the hands, keep the arms close to the sides, and go skipping and jumping, hopping and bouncing, very much like a kangaroo.—The motion must be as graceful as the dignified strut of a lame Shanghai chicken in the grass.

If the following story is not true, Gen. Grant's friends ought to contradict it by authority, and it is to be presumed they would have done so long ago. The fact that it has been going the rounds for weeks uncontradicted, is presumptive proof of its truth:

Mrs. A. C. Brewer, formerly Miss Cox of Holly Springs, Miss., in a published letter, charges General Grant and his wife with carrying off silver plate from the house of her father, which they occupied at Holly Springs. Among the valuable articles carried off in Grant's baggage was a handsome card waiter of silver, with the name of General Moultrie engraved in the centre; also a massive silver waiter, handsomely carved, made in England before the Revolution, with the name "Mary Annesly, 1750," engraved in the centre. "This waiter," she says, "has been in her father's family for a long time, and will be readily recognized in the Grant mansion at Washington. That and several other articles of value that came from the South may be recognized there." A nephew of General Grant also at the same time took an antique quilt made by the grandmother of Mr. Cox.

Special Dispatch to the Baltimore Gazette.

Washington, September 6.—Rumor is already busy with the names of those who may succeed to the War Department.—General John A. Logan, George H. Thomas and Joe Holt are mentioned in connection with the position, and so is G. W. Dodge, Chief Engineer Union Pacific Railroad, to whom it was reported Grant had offered the place some time since.

Boutwell's friends say that the only obstacle to his retaining his position in the Cabinet is now removed, and his early arrival in this city is anticipated.

General Rawlins, before he died, expressed himself very freely on political matters, and in favor of the most liberal interpretation of the Reconstruction laws, and the early admission of the Southern States into the Union on such terms as would leave no regrets. He also expressed the desire that all the moral aid of the Government should be given to the Cubans, who are now struggling for independence. Y.

For the Sentinel,

Chapel Hill, Sept. 6th 1869.

Editor Sentinel:—In behalf of the Magistrates and Clerks of Chapel Hill, we beg space in your columns to notice an article, which appeared in the *Standard* of the 1st inst., in regard to a visit of the "Ku Klux," to our quiet little village a few nights ago, which savors considerably of that fear of their vengeance, which could alone be prompted by and from the result of some improper course of conduct, since this alone, so far as we have been able to learn, has seemed to prompt and direct their movements.

But first of all, that we may not be misunderstood, and our article construed as a defence of *secret* political organizations whether under the name of Leagues or Ku Klux, one the natural and certain result of the other, as can but too easily be traced from the history of other nations, let us say, that such laws as have been enacted, with a view, either to the establishment or perpetuation of that form of government under which we were reared, and so early learned to love and venerate, and such ordinances and laws as now exist, that can possibly tend to that end, however disagreeable or inconvenient they may be to us, finds in our bosoms, burning brightly as ever, that love and veneration, which years ago would prompted us to take any steps, to aid the administrators of the law in carrying out its provisions to the end, that the blessings naturally flowing from a Republican form of government should be fully enjoyed by all.

That there was, in our midst, a few nights ago, a number of men in disguise, we cannot deny; but we do deny that our community was wild with fear and excitement, and have heard of such feelings having seized only a few in the community, whose political course has tended, in every respect, to interfere with the peace and quiet of society, in consequence of which we are not surprised that sleepless nights—constant fear of the lash, or even the assassin's knife—evil, forebodings, &c., are their constant companions. Let us all say that apart from their disguise but little was either said or done, to which an objection could possibly be urged: quietly they passed through the heart of our slumbering village, at the dead hour of the night, with nought to disturb its quiet, save occasional "*goosy noises*," which proved to be the breaking forth of the words "Ku Klux," which is proving such a terror to many throughout the country, whose evil doings and crimes, force them to feel that they richly deserve a visitation from some source, which we would decidedly prefer should come in the shape of the contempt and scorn of all true and law-abiding citizens in the communities in which they live.

Our corps of civil officers, we are told, are not only incompetent, but men whose political prejudices are so strong as to allow them to ignore their oaths of office; in that they fail to administer the law faithfully, and even a charge in regard to the regular form of procedure in connection with their duties suggested. These men have been grossly misrepresented; they are, with a few exceptions, men who have grown gray in the service of this community; men who, for years, have filled with much credit to themselves, the very offices to which an appreciative public has recalled them; men known for their honesty and impartiality, under the most trying circumstances and unswerving strictness and firmness in carrying out the provisions of the law in all cases that have been presented for their bearing. They are men whose character are too well established, to be injured by party newspaper scribbling, and we feel that 'twould only be necessary to cite a few instances of lawlessness that have occurred since their return to office, to show who among us are most disposed to disregard and resist the laws of our State.—These offices we claim as ornaments to our community, and if it were entirely composed of men of this stamp, there could certainly be no necessity of *an agent at two dollars per day*, to canvass our County for the signature of magistrates, in order to secure a company of "mufish" to prey upon our poverty-stricken people. Thus we see that ignorance, vindictiveness and the innumerable qualities that have for sometime past, characterized the administration of our Township affairs are giving way to such qualities as should ever be the ruling characteristic of our leading men.

As to the clerks, carpenters and loafers of Chapel Hill, who, it is asserted, compose this organization; let us say that, if numbers be taken into consideration, it could not possibly prove very formidadable, certainly not so much so as the number we remember to have seen on the night of their visit to this place; since we number, all told, not a dozen, neither of whom entertain the least sympathy with any person or persons who may feel disposed to take the law into their own hands, while we have the proper officers to enforce it, nor do we believe there is a man in this community who has either any connection with or knowledge of, any such organization.

We would close with the statement, that but little doubt exists as to our knowledge of the author of the article alluded to, and would remark that, whatever be our social standing in this community, we are surprised that he should venture an opinion, since he has not yet attained that degree of respectability that could possibly enable him to distinguish very correctly the different degrees that exist among those with whom he cannot associate save in his business relations.

For any explanations "Observer and Citizen" is respectfully referred to the "Chapel Hill Clerks," who jointly issue this communication, and whose names, without an exception, accompanies it.

The Chicago *Advance* has an elaborate plan for the resumption of specie payments two years and five months hence, prepared by Gen. Nettleton and endorsed by Jay Cooke, which has been thus summarized: It proposes to withdraw $100,000,000 of greenbacks, and give the National banks of the West, South and Pacific coast authority to issue that amount. There will then be $256,000,000 greenbacks and $400,000,000 National bank notes in circulation, which are to be kept legal tender, as now, but shall be redeemed in gold when presented, the greenbacks in New York and the bank notes each at its own bank.—Meantime the Government is to hoard gold, issue compound interest notes, and if necessary, make a small gold loan in Europe.—After resuming specie payments to the extent indicated, the Government bonds are to be exchanged for longer bonds at a lower rate of interest. A "sliding scale tariff" is also to accompany these measures.

Who are the Repudiators?—The *World* is showing that the Republicans, and particularly the "Protectionist Republicans," and not the Democrats, are the real Repudiators of the National Debt:

"If we were enemies of the national debt and desired its repudiation (the editor says) we can think of no expedient for securing that result so promising as a steady continuance of our present heavy and grinding taxation. Make the burden so oppressive that the mass of the people grow restive under it, and they will soon seek to throw it off by repudiating the debt. The practical repudiationists are they who seek to render the pressure of taxation intolerable, and to perpetuate it without mitigation."

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice**, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.
J. M. ATKINSON,
Pastor of the Presbyterian Church.

Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina, }

Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.
Prof. Morris Bernhardt, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.
W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:
Horatio Seymour, Governor of New York.

Important to Magistrates and other County Officers.

Hand-Book for County Officers:
A GUIDE FOR JUSTICES OF THE PEACE AND OTHER COUNTY OFFICIALS.

REVISED, ENLARGED AND IMPROVED!

THE SECOND EDITION of this work, greatly enlarged and improved, will be ready for delivery to subscribers on the 10th of September. It has been delayed thus long, in order to add to its usefulness, by publishing

ALL THE ACTS OF THE LAST SESSION OF THE GENERAL ASSEMBLY,

relating in any manner to County Officers, or County Police.

The Publishers have spared no expense in getting up this edition; the text and the forms being carefully prepared and arranged by a member of the Raleigh Bar, of acknowledged ability, and great experience in preparing legal forms and codifying laws.

Justices of the Peace, Judges of Probate, Sheriffs, and all other County Officers, will find in the Hand-Book the law prescribing their powers and respective duties, together with forms and precedents necessary to a proper and systematic discharge of their duties. No Justice of the Peace, or other County Officer of ordinary intelligence can possibly err, or fail to fill his office with credit to himself, who will make the Hand-Book his guide, however inexperienced he may be in the practice, procedure and forms of law. The edition contains over THREE HUNDRED LARGE-SIZED PAGES of closely printed matter, on good paper, with a table of contents and a full and exhaustive index to the text, and over

Two Hundred and Fifty Forms,

inserted with the text, and immediately following the provisions of the law to which they apply.

In order to place the Book within the reach of every officer and business man in the State, the publishers offer the same at the following reasonable prices:

One Copy, in paper cover,	$1.00
" " cloth	1 25
" " law binding,	1.50

When sent by mail 25 cents must be added.

Upon receipt of price, the book will be at once mailed or sent by express, as subscribers may direct. Address

NICHOLS & GORMAN,
Book and Job Printers,
Raleigh, N. C.

☞ All kinds of legal blank forms furnished to order, and Job Printing of every description neatly, cheaply and expeditiously executed.

Editors publishing the above, and sending a marked copy of paper to the publishers, will receive a copy of the "Hand-Book" in law binding.

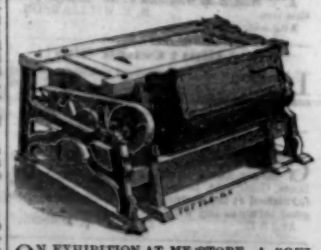
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

NEW ADVERTISEMENTS.—Leaf Tobacco, N. C. Flour, Bacon Hams and Sides, and Top and Bottom leather, by B. F. Cheatham & Bro.

WHY LEFT SO?—We are informed that in the pavement, on Blount Street, in front of the residence of the Chief of Police, is a mud hole or pond that renders that side of the street impassible to pedestrians, and that it has been in this condition for considerable length of time. An elderly lady, who pays seventy dollars in taxes to the city, was forced, yesterday, to cross the gutter in order to pass the place, and requests us to call attention to the matter.

NEW COTTON CONDENSER.—Mr. Grey Utley of Hillsboro, is having put up at the Sash and Blind Factory of Mr. Thomas Briggs of this city, a full size model of his new cotton press, and expects to have it ready for work in a few days, when those interested will have an opportunity of inspecting it and seeing it operate.

This Press or Condenser combines the qualities of simplicity, cheapness, convenience and durability. It occupies a space 6 by 8 feet; entire height, 13½ feet; height of cotton box, 8 feet 6 inches. The size of the bale turned out is 4 feet 6 inches in length, 2 feet 2 inches thick, and 2 feet 4 inches deep; but these dimensions may be changed to suit any one specially ordering it. The Press, with ordinary filling, turns out bales of 500 pounds weight, and can be operated with two good hands.

Mr. Utley is making arrangements, we learn, to supply orders for these Presses, and any one in need of a Press would do well to examine those built by him.

See the advertisement of this Press, by T. H. Briggs Esq., in our paper to day.

The "Big Indian" is on the war path.—The White Chief's scalp in danger. Geo. Z. came to town yesterday, and, now, the question must be settled in regard to the fate of carpet-bags.

In other words, we have the pleasure of chronicling the arrival of George Z. French of Wilmington, in the city, by the Eastern train, yesterday afternoon.

CHEERING.—Some eight or ten Northern gentlemen arrived in the city by the evening trains, yesterday, who visit our State, we learn, for the purpose of looking at lands with a view to location. We hope their sojourn in the city may be pleasant, and that they may find things to their liking. We commend them to the courtesies of our citizens.

WHAT ONE MAN DID—HANDSOME WAY TO TREAT AN EDITOR.—At Warren Court a young friend walked out upon the street, and, in less than forty minutes, gave us twenty four subscribers, with the money for the same. Courts are being held throughout the State. We shall be glad if our young friends will follow the example set in Warren.

Dr. Wes. has made a pun, at last, but it is a very *sheepish* one—best he could do, however.

SATURDAY MARKET.—Those who wish a good piece of Beef, or a fine quarter of Lamb, will do well to call on Ben Kirkham to-morrow (Saturday) morning. He may be found at his old and well known stand, near the *old* market place.

FROM THE SPRINGS.—Col. R. H. Cowan and family of Wilmington, arrived in the city on Thursday, from the Sparkling Catawba Springs, where they have been sojourning for several weeks, and are stopping at the Yarborough House. They will remain in the city, we learn, for several days, before returning to their home in Wilmington.

PIANO FOR SALE.—A lady of this city, who has an excellent Piano, wishes to dispose of the same, and will sell it on moderate time. For information as to price, &c., application may be made to this office.

A MONROE, ESQ.—We publish, to-day, a Card from A. Monroe, Esq., incarcerated in Newbern, on a charge of complicity in the murders in Lenoir, on the evidence of Parrott, Tilley and Lassiter. This card is called forth by a low and dastardly attack on Mr. Monroe, in an editorial by the Newbern Daily *Times*, written and published, doubtless, with a view to manufacture public opinion against the accused parties.

RETURNED.—We noticed on the streets Thursday, Willie J. Palmer, Esq., Superintendent of the Deaf, Dumb and Blind Institution, who has been on a ruralizing and recreative excursion for two or three weeks in some of the Western counties.

The next session of the Institution for the Deaf, Dumb and the Blind, opens on the first Monday in October; which fact, with all information in regard to the steps necessary to admission of pupils will, we suppose, be made known officially, in due time.

SUICIDE.—F. M. Scott committed suicide in Tarboro', on Tuesday last, by taking laudanum. The *Southerner* thinks it was caused by insanity.

MORE ARRESTS.—The Sheriff of Robeson has lodged three more prisoners in the New Hanover jail—Henry Oxendine, Jack Glover and Simon McMillan, charged with complicity in the murder of the late Sheriff King, of Robeson.

The *Star* says that Dr. Sloan is about to make arrangements for carrying a Daily mail from Wilmington to Charlotte *via* the line of the W. C. & R. R. R.

LAW—LAW.—Before Justice Adams, on Thursday, E. S. Wallace, white, was up on complaint of James Jones, colored, on a charge of threatening to shoot complainant. It seems they had a contract to crop together, Wallace furnishing the horse and plough, and Jones performing the labor. It further appears, in argument, that Jones anticipated the results of his labors, by stealing the corn, without measuring out Wallace's share, whereupon Wallace had him arrested and taken before a Magistrate on charge of larceny, and the charge was sustained. The Magistrate required security of Jones for his appearance at Court, which Jones could'nt give. A compromise was then proposed and accepted, the leading feature of which was that Jones was to leave the county. He did not go, but attempted to return to Wallace's. Wallace threatened to shoot him if he came on the place, hence the warrant.

For want of a witness for the defence, the case was laid over until Saturday, 10 o'clock, A. M., and "a cloud of witnesses" recognized to appear at that time.

POULTRY—STATE FAIR.—One of the most instructive and interesting papers to be read at the next State Fair, in October, will be prepared at the instance of the President of the Agricultural Society, by J. G. Arrington, Esq., of Nash, son of the late Colonel Nicholas W. Arrington.

These gentlemen, father and son, have long studied the rearing of poultry, their diseases and the remedies therefor. This State is remarkably well situated for supplying the markets of the great cities with fowls, and we advise all house-holders to pay good attention to the counsels of Mr. Arrington.

MASONIC.—The regular meeting of the Wm. G. Hill Lodge, No. 218, A. Y. M. held in this city on Wednesday evening, the following officers were elected and appointed for the ensuing Masonic year, viz:

J. B. Neathery, Master.
Wm. Simpson, Senior Warden.
Alex. S. Heide, Junior Warden.
John G. Williams, Treasurer.
J. H. Alford, Secretary.
Jack R. Williams, Senior Deacon.
N. L. Brown, Junior Deacon.
John C. Gorman, Marshal.
W. R. Dicks and W. L. Nowell, Stewards.
J. M. Betts, Tyler.
R. H. Bradley, John C. Blake and Andrew Syme, Special Charity Committee.

CAUGHT AND FINED.—A man by the name of Smith, from Harnett County, was taken up and fined $7.50 for fast driving of a four mule team on the streets, yesterday. Smith says his mules became restive, and he could not manage them. He, being from the country, might not have been aware of the nature of the offence he was committing.

We are glad to see a strict enforcement of the ordinance in regard to fast driving and riding initiated, for there is scarcely a day that horses may not be seen galloped through the streets, or phætons and carriages driven at unlawful speed; the latter sometimes containing females of peculiar morals from the suburbs. Riders, too, sometimes run over ladies walking the streets.

A PAYING INSTITUTION.—A gentleman of this city recently addressed a communication to the Superintendent of the Co-operative Store at Company Shops, in this State, requesting a copy of the By-Laws of that association and such information as might be necessary in the establishment of such an organization in this city. This morning a reply was received from that gentleman, expressing a willingness to give any information which he might possess, and remarks: "We have been successful so far. We have been doing business three years, and have declared dividends in stock and cash to the amount of 105 per cent."

If an institution of this kind is so successful at such a small place, what must it be in a large city like Wilmington?—*Wil. Sar.*

TO THE PUBLIC.

"The *Times*," in an editorial of the 4th, refers to me as "one of a gang of desperadoes," and in a most unwarrantable manner, attacks my character at a time when the Editor must have known, that I was arraigned before an impartial tribunal under charges by the State.

I merely write this to call upon every honest minded—every honorable man, to treat this attack of a partizan press to manufacture public opinion against me, (a man, under charges which involve his life) with the scorn and contempt which it deserves.

I do not hesitate to appeal to my enemies to protect me from such a dishonorable and villainous attack.

The Editor says that although I was cooperating with a gang of murderous desperadoes, I had the effrontery to write to a 'certain paper in this city" about the down trodden and oppressed of my section.

I would take this opportunity of informing the gentleman, (God save the mark!) that so far as I am concerned, I am not one of the down trodden, for within my bosom I bear the conscious knowledge of the rectitude of the principles which have guided me through life, and I feel that the motives which have always actuated me, are springs as strong, yea, stronger than steel, and will not snap under any load of oppression which an insolent tyranny may impose.

And I would also inform the author of the article referred to, that unless a prompt and ample apology for this unwarranted and uncalled for attack upon my personal character and an entire disclaimer of any intent to "manufacture" public opinion against me, be immediately offered—he may rest assured that at the proper time he will surely receive the chastisement which he deserves so richly.

I would also take advantage of this opportunity, in this public manner, to express my appreciation of the courteous bearing of the counsel for the State, during the preliminary examination through which I have just passed. And I would also desire to express the many obligations under which I feel myself bound to the Messrs. Tinker and Hancock—Deputy Sheriffs—for the many courtesies which they have extended to me, during my confinement in their custody, and I would assure them that whatever may be my fate, they have my sincere acknowledgments of their grateful remembrance.

I will say no more, as I do not desire to "manufacture" public opinion in my favor, (in fact, would consider it unmanly to attempt to do so) but simply sign myself,

"An Ambassador in Bonds."

A. MUNROE.

CRAVEN STREET JAIL, Sept. 6, 1869.

BOARD OF EDUCATION.—An adjourned meeting of the State Board of Education was held, yesterday, at the Executive Office. Present: Gov. Holden, Chairman, *ex officio*, Hon. T. R. Caldwell, Lieutenant Governor, C. L. Harris, Superintendent of Public Works, D. A. Jenkins, Treasurer, and S. S. Ashley, Superintendent of Public Instruction, and Secretary of the Board.

Agents from several Publishing Houses having been heard the day before, the Board proceeded to adopt the following series of text books for the Public Schools of this State:

1. National Series of Readers—A. S. Barnes & Co., Publishers.
2. Wilson's Fifth Reader—Harpers', Publishers.
2. Parker and Watson's Speller—Barnes & Co., Publishers.
4. Davie's Arithmetic, Barnes & Co., Publishers.
5. Montleith's Geographies—Barnes & Co., Publishers.
6. McNally's Complete Geography—Barnes & Co., Publishers.
7. Guyot's Common School—Scribner & Co., Publishers.
8. Harvey's Grammar—Wilson & Hinckle, Publishers.
9. Montleith's First History of the United States—Barnes & Co., Publishers.
10. Boers' System of Penmanship—Barnes & Co., Publishers.
11. White's Graded School Register—Wilson & Hinckle, Publishers.

The selection of the higher branch text books was postponed for further consideration.

STORM AT BEAUFORT.—We understand that a severe storm visited Beaufort Harbor on Tuesday, the gale being the most violent experienced for years. We had a sharp touch of it here.

We suppose this is a precursor of the equinoctial storm, now near at hand.—*Journal Commerce.*

Thursday Midnight Dispatches.

FROM WASHINGTON.

WASHINGTON, Sept. 9.—The Treasury Department re-asserts that there has been no mutiny on board the U. S. Steamer Sabine.

Information has been received that a small Cuban expedition has been detained at Macon, Ga.

Flags of Custom Houses throughout the country have been ordered at half-mast on Saturday 18 in honor of Sena or Fessenden's funeral.

Secretary Cox is absent on account of the sickness of his child; Boutwell is also absent; the remainder present and dined with Secretary Fish to-day.

NOVA SCOTIA.

HALIFAX, Sept. 9.—The Steamer Hornet has been released. It is still believed that the Hornet was destined for Cuba, and will receive men and arms at sea.

PENNSYLVANIA.

AVONDALE, Sept. 9.—Experienced miners have explored every part of the mine, but it is said that two bodies are still missing.

THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 569 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,237 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

A TUBULAR RAILWAY BETWEEN FRANCE AND ENGLAND.

Mr. Bateman, engineer, at the meeting of the British Association, gave an interesting description of a cast-iron tube which he suggested should be laid down for railway purposes between England and France.—He stated that it was the joint design of himself and Monsieur Revy, an engineer of Vienna. The tube would be commenced on one side of the channel, and would be laid at the bottom of the sea, being built up inside a horizontal cylinder or bell, which would be constantly pushed forward as the building up of the tube proceeded.—The line selected for the tube to be thus submerged would be close to Dover, on the English side of the channel, and would extend to Cape Grisnez, on the French coast, the distance between the two points being twenty-two miles, and the average depth of water one hundred and ten feet. Mr. Bateman stated that the tube would be made large enough for the passage of carriages of ordinary construction, while the traffic was proposed to be worked by pneumatic pressure, thus securing a constant supply of pure air and at the same time precluding the possibility of a collision.—He estimated that a slow train would be able to accomplish the distance in one hour and six minutes, but an express would go through with ease in forty-five minutes.—Five thousand passengers and ten thousand tons of goods could be conveyed through the tube daily. The estimated cost of the whole project was eight millions sterling, the annual working expenses being put down at £150,000. The discussion reveals the general opinion of the section to be that Mr. Bateman's plan was the best yet proposed. Mr. Bidder, C. E., had some doubts as to the sufficiency of the estimate, but Mr. Bateman was certain it was enough. The work would take five years to accomplish.

A CALIFORNIA HABIT.

"Take a drink ?" is a form of expression somewhat common in California. Formerly there was absolutely nothing which could be consummated without going through the ceremony; business transactions, the meetings of friends at street-corners; any possible opportunity, in fact, was eagerly seized for the purpose. A little of all this has been modified, yet there is more than enough left. At the theatres, between the acts there is a greater rush out than could be accounted for from ordinary causes.—Our people are a thirsty race. A young lady, commenting in one of our papers on a visit paid by her to the opera in company with a young man of otherwise unexceptionable habits, but somewhat prone to "going out," says:

"Hardly were they seated before he must go out and get a *libretto*, which *libretto*, being brought, smelled horribly of clover. Then the book fell, in a quite unaccountable manner, over the balcony; and on the return of Augustus with the missing document the odor thereof was one of unmistakable juniper. Here the first act ended; and, 'By Jove, there's Frank'; and forthwith a visit became necessary to that gentleman, whose habits could not have been of the best, seeing that proximity to him had diffused about her escort, on his return, a strong flavor of Otard. After this there was a fire alarm, and with something about 'the office' Augustus disappeared again, returning with a piece of champagne cork in his beautiful, curly whiskers. This kind of thing, the young lady is confident, was gone over at least a dozen times, and led her to think seriously on the subject.—It is all over with them now."

Temperance societies do not thrive in our midst, and (with all due respect to Dr. Scudder, who has asked from the pulpit, "Shall we drink wine?" and has since published his sermon on the subject,) I question whether they ever will. California is, as some of your citizens know pretty well, a tolerably dusty old country; the climate is warm anywhere (except San Francisco,) and much of the South has a broiling temperature; the grape thrives everywhere; *ergo*, I think "we shall drink wine," and do so with some spirit.—*Chicago Journal.*

EXCAVATIONS IN ROME.

The Pope is delighted at the continued success of the excavations at the Emporium. The marbles already extracted from that ancient wharf are valued at 2,000,000 francs; and as Baron Visconti predicts that the depot will be found to extend down the left bank of the Tiber from the Avenine to the church of St. Paul *extra muros*, the supply may be considered as almost inexhaustible. Last week sixteen great masses were got out, one being of rose colored oriental alabaster of great value, another of pavonazzetto, and several of giallo antico. The Emporium has supplied everything that the restoration of Agrippa's Pantheon required, and the same materials are being employed in the restoration and embellishment of twenty-one churches in Rome. The Pope has also sent presents of marble to various churches in different parts of Europe, and has promised Archbishop Manning an assortment of the most precious kinds for the enrichment of the future Cathedral of London. The Prussian Government has returned thanks for the munificence of his Holiness' gift to the Cathedral of Aix-la-Chapelle. Switzerland will not be forgotten in the dispensation of these long hidden treasures. Only two columns of African marble of size and importance, were hitherto visible in Rome, at the entry of the portico of St. Peter's. The Emporium has furnished fifteen others, of which the largest has been destined to be the commemorative monument of the Council on the Janiculum. Thirteen pieces of the precious marble, for which the ancient Romans paid fabulous prices, have also been discovered. The Belvedere court yard in the Vatican is now the principal depot of these marble treasures which are arranged there under the Pope's immediate inspection. Last week his Holiness witnessed the arrival of an enormous block of African marble, dragged from the Tiber Bank to his palace by twenty shaggy black buffaloes.

Koskoo!

THE GREAT REPUTATION
Which KOSKOO has attained in all parts of the Country
AS A GREAT AND GOOD MEDICINE,
has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.
THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.
As a BLOOD PURIFIER, it HAS NO EQUAL,
BEING POSITIVELY THE
Most Powerful Vegetable Alterative
YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.
The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.
Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.
When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!
AS A
LIVER INVIGORATOR!
STANDS UNRIVALLED.
BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the LIVER instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!
Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as MUCH A SPECIFIC AS ANY remedy can be. It does its WORK KINDLY, SPEEDILY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.
Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suppression of the urinary discharges will occasion death from thirty-six to forty-eight hours.
When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!
MEETS WITH GREAT SUCCESS IN THE CURE OF
Diseases of the Nervous System.
Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to the concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.
The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.
Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
